📍 Bengaluru, India

Motivated Computer Science Student eager to leverage academic knowledge and practical skills to contribute to innovative projects and further develop as a software engineer.

Education

B.E/Computer Science and Engineering   12/2021 – present
Dayananda Sagar Academy of Technology and Management   Bengaluru, India

12th Grade   07/2021
SP Smart Hr. Sec School   Jammu, India

Skills

C/C++   Python   Data Structures and Algorithms

Design and Analysis of Algorithms   Problem Solving   Adaptability

Communication Skills   Time Management

Certificates

- Python 101 for Data Science, IBM
- Programming Using C++, Infosys
- Azure Fundamentals (AZ-900), Microsoft

Projects

Company Financial Analysis Using R
This tool utilized R's data manipulation and visualization features to perform comprehensive financial assessments. I collected financial data, conducted trend analysis, and delivered strategic insights, showcasing my strong data analysis, financial evaluation, and programming abilities.

Student Information RFID Card Scanner Using Arduino
Developed a 'Student Information RFID Card Scanner Using Arduino,' showcasing my hardware integration and software development skills. The project effectively read RFID card data, linked it to student records, and featured a user-friendly interface, demonstrating my commitment to technology-driven solutions and data security.
